Jason Fierst , A.S.C. Senator of Athletics, Student & Instructional Services

Hi my name is Jason Fierst and I am currently the Senator of Athletics, LRC and Student Services and if all goes well today, I will be your new Director of Legislative Issues. This past week I chaired the Smoking Task Force, had a meeting with Mike and also had a great 1 on 1 with Stevie. Attended the performance by comedian Ben Kromburg and worked with Mike on some ideas for upcoming athletics events and today I gave blood at the INBC blood drive. It has been a really fast and short week, but very eventful. The smoking task force will be rolling out a campus wide survey the week of registration and every student and faculty member will have a chance to participate, more details to come.

Levi Hanson, A.S.C. Senator of Arts & Sciences

This week I participated in the Smoking Task Force meeting on Thursday where we discussed changes to the campus smoking policy and attended the show by comedian, Ben Kromberg. On Monday, Martin Luther King Day, I marched along with other members of student government in the parade downtown. On Tuesday, I met with Teri, programmer of promotions about the Spring Arts & Sciences Festival. At the same time I contacted the dean of the Arts & Sciences Division and members of student government at SFCC about the festival. In preparation for today's meeting I read constitutions for the clubs that are seeking ratification and did some research concerning SAL's event funding request. Thank you.

Mike Morris, A.S.C. Senator of Health & Environmental Science

Good Afternoon! My name is Mike Morris, Your Senator of Health and Environmental Sciences. During the past week I met with Tom Hollingshead to coordinate the technical aspects of the February 25 Presidential Speaker Series event with Joseph Cirincione. I also reviewed a club constitution submitted by Tami Windhorst. I also had an appointment with Miss. Donna Phinney, The Department Chair of Allied Health and an instructor in the dental assisting program. I talked with her about their Student Tech Fee Committee proposal and the Dental Clinic. Here is what I have learned: in the recent past the Dental Clinic has come under new management by a different instructor and some problems have arisen. The manager, the dental assisting program instructors, and the Dean of The health and Environmental Sciences Division are all working together to reopen the Clinic as soon as possible. The next event I have heard about is for the first five weeks of Spring Quarter the dental assisting program will be offering FREE dental x-rays, teeth cleanings, and fluoride treatments. I will keep you updated as learn more about times and locations. Thank you.
