Jason Fierst, Associated Student Council Director of Legislation

Hi, my name is Jason Fierst and I am the Director of Legislative Issues. This week I attended the STFC meeting, met with Mike, met with the outgoing Director of Leg. to discuss plans in progress. I produced the survey that will be sent out for Smoking Advisory Task Force in the coming weeks and I was also in contact with the Seattle office of the US Census Bureau about a program here on campus to do census education. Today I was able to attend a lecture in the Hagan Center for the Humanities by Kelly Learner and Alli Kingfisher called Strawbales, Sky Tombs, & Sichuan Pepper.

Lindsay Murphy, Associated Student Council Director of Emergency Services

Friday Dan and I checked out a vehicle from fleet and picked up the order we had prearranged last week. We also went on a shopping trip to Safeway where we picked some supplementary goods for the food bank not provided by 2<sup>nd</sup> Harvest. We unloaded, stocked shelves and returned the fleet vehicle. Friday Anna and I helped Kendu with his "Can 4 a Can" project. Monday and Tuesday Anna also assisted Kendu. Monday I attended the Student Technology Fee Meeting where we heard proposals from several departments on their plans for student tech fee dollars. Tuesday I filled out 2<sup>nd</sup> Harvests organization up-date and fair share application and mailed it in. Wednesday the 27 I submitted our order to 2<sup>nd</sup> Harvest to be picked up next week and arranged for a vehicle from the fleet department.

Terri Hatten, A.S.C. Senator of Athletics, Student & Instructional Services

This week I accepted my new position as the Senator of Athletics', Learning Resources and Media departments, also I had to finish my duties for my old position as the Promotions Coordinator for the SAC. For the Promotions Coordinator position, I made my last posters up and coming events on campus, and I along with the programmers distributed these posters around campus. I attended my last SAC Council meeting with a heavy heart, but gladly take on my new duties in my Senator position. I attended the Student Tech Fee Meeting. I attended several club meetings. Brenda, myself, and Matt Kazmar have been interviewing people for my old position as the Promotions Coordinator, so we have had several meetings to discuss candidates, and also have performed interviews, and are still in the process. I met with Levi Hanson to discuss the Science and Arts Festival that we will be having in June, and as it progresses, we will announce more information about this event. I also met with Brenda and Jason and Michael Watson to discuss transitioning correctly into my new position. I moved offices, and now I share an office with Kendu. I also had a meeting with Tasha with Shut up and sign to discuss what our club is doing for the diversity week. I met with Don about Diversity week as well. I wanted to Thank everyone for all their support they have given me, and thank you for ratifying me into my new position, I'm truly honored, and I will do my best for our great team!

Levi Hanson, A.S.C. Senator of Arts & Sciences

Hello, my name is Levi Hanson and I am the Senator of Arts and Sciences. This week I attended several meetings; one with ASG President Mike Watson; another with Terri, a fellow Senator about the upcoming Arts and Sciences Festival and I also met with the rest of the Student Tech Fee Committee regarding allocation of the student tech fees. I was present for the discussion today at the Hagan Foundation by Kelly Lerner and Ali Kingfisher which was a fascinating look into their travels to China and their mission to help people rebuild sustainably after the earthquake there. Several students have also voiced their concerns to me about the removal

of furniture in building 1 following the arson incident that happened a few weeks ago. I've spoken with members of facilities and the administration and the plan is to replace that furniture with benches similar to those in the Lair; these benches will be flame resistant and should arrive in the near future. Thank you.

Mike Morris, A.S.C. Senator of Health & Environmental Science

Hello and good afternoon! My name is Mike Morris, your Senator of Health and Environmental Sciences. Since our last meeting I have been planning out times that I will be able to attend club meetings and meet with club advisors. I have also been doing a lot of research on Proposals for the Student Tech Fee Committee. I am also trying to set up a date that SCC's student government can meet with SFCC's student government at the Falls and have a discussion with them on the advantages and disadvantages of their office setup. For those of you who don't know, last quarter Dr. Terri McKenzie came to the student government with a proposal to eventually move our offices into what is now the game room. There was substantial debate on the subject and we ended up deciding that further information was necessary before making a final decision. To facilitate that information gathering process, we decided that it would be a good idea for SCC's student government and Dr. McKenzie to visit a college with a similar setup and see how well they function. As the Falls already has this setup and we already have a working relationship with them they are the perfect choice. I am shooting for an afternoon in mid to late February and will be sending out an email with specific date suggestions by the end of the week. I would like as many members of student government as possible to attend this meeting as I feel it could have a very big impact on our future. If you have further questions on this subject I will be happy to talk to you after today's meeting. Thank you.

Ray Allen, A.S.C. Senator of Technical Education
